EDUCATION

GLA University

Bachelor of Technology (B.Tech) – Computer Science and Engineering

CGPA: 7.3 / 10

Mathura, Uttar Pradesh

August 2023 – June 2027 (Expected)

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL, HTML, CSS

Frameworks and Libraries: React.js, Node.js, Express.js, FastAPI, MongoDB, MERN Stack

Web Development: REST API Design, Responsive UI Design, Frontend Development, Backend Development

Developer Tools: Git, GitHub, Postman, VS Code, Database Caching, Agile Development

Cloud and Deployment: Vercel, Render, Cloud Computing

CS Fundamentals: Data Structures and Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks

INTERNSHIP AND TRAINING

GLA University

Software Security Trainee – Job Oriented Value-Added Course

Mathura, Uttar Pradesh

June 2025 – July 2025

- Researched and implemented mitigations for common web vulnerabilities including SQL Injection, Cross-Site Scripting (XSS), and Cross-Site Request Forgery (CSRF).
- Conducted vulnerability assessments and documented findings with actionable remediation steps, applying OWASP Top 10 security guidelines.

PROJECTS

CivicAI | [Live Link](#)

January 2026 – February 2026

Tech Stack: React.js, FastAPI, Python, REST API, Vercel, MongoDB

- Developed a full-stack AI-powered chatbot application with intelligent link parsing and context-aware query handling using Python and FastAPI.
- Designed scalable REST API endpoints integrated with AI language models to process natural language queries and return structured real-time responses.
- Built a responsive frontend using React.js and deployed on Vercel, achieving low-latency performance and seamless cross-device experience.

CERTIFICATIONS

NPTEL Online Certifications – IIT Kharagpur and IIT Madras

2025 – 2026

Completed NPTEL certification in Computer Science domain, demonstrating proficiency in core computing concepts.

AWARDS AND ACHIEVEMENTS

GeekVerse 1.0 Hackathon – Participant

January 2025

Developed SpeciFit, a fitness-focused full-stack web application, within competitive hackathon time constraints, showcasing rapid prototyping and teamwork.

LeetCode – Competitive Programming | [Link](#)

Solved 300+ Data Structures and Algorithms (DSA) problems, demonstrating strong analytical thinking and coding proficiency.
